

Frankfort And Mokena Will Observe 100th Birthday Anniversary Sept. 27

Interesting Exhibit of Old Time Relics, Old Time Dances And Events to Feature Celebration

Mokena and Frankfort and adjoining territory all located in the town of Frankfort will celebrate the 100th birthday of these two villages and Frankfort township Sunday afternoon and evening, Sept. 27th at the Frankfort Grove half a mile north of the Lincoln highway on route 51.

Many historical and interesting relics, many over a hundred years old will give one a glimpse thru the dim vistas of the past.

Among the many interesting relics which will be on exhibition will be a spinning wheel exhibited by Aug. Schmeckpeper of Frankfort township. This wheel is an heirloom and belonged to his grandmother and is 100 years old. It was used in this section in the early days. Old rope beds, old time quilts will be among the relics. Another exhibit of especial interest to the ladies will be the "original" Eugene hat now so popular. The old timer is now over 70 years old. There is also an old bonnet in the collection bought at the millinery store of the late Mrs. K. Sippel fifty years ago.

Another outstanding relic is a brass coffee dripalator, the forerunner of the modern percolator. The old time dripalator is well over the century mark. There will be fine exhibition of Indian relics, such as Indian stone hatchets, stone skinning knife, stone grinder and arrow heads found along Hickory creek near Mokena. Indian moccasins, a peace pipe, an Indian "billy" made of a horse tail to the end of which a stone is sewed in a leather covering which the Indians used to knock down their enemies or game, Indian beads and other relics also are in the Indian collection.

EVERYONE in Frankfort township is urged to bring some relic or curio for exhibition to the Frankfort Grove Sunday. All exhibits are to be in by one o'clock Sunday afternoon. Owners of relics can take same home with them at the close of the exhibition in the late afternoon or forepart of the evening. All exhibits will be well cared for.

A good program of entertainment by professional entertainers is being arranged for the afternoon. Old time music, songs and dances will also be featured. In the evening an old settlers dance will be the main event with old time waltzes, two-steps, etc. Special prizes will be awarded to the oldest couple in the grove and to the oldest couple dancing. There will be plenty of eats as well as refreshments to be had on the grove.

Everyone is invited to attend this centennial celebration from neighboring towns and cities. Come, meet old time friends and renew old acquaintances.

Levi Doty, 95 years old and Mrs. Ebenezer Stephens 88 years old, mother of postmaster Robert Stephens of Frankfort are among the old settlers of Frankfort now living.

Photographers of the Chicago Tribune and the Chicago Daily News have been here this week taking pictures of the old settlers and the relics.

The Frankfort township of today is quite in contrast to the country found here in 1831 by the first settlers. The swamps, prairie and forest have been converted into productive farms and two villages have sprung up out of the prairie. Where the redmen formerly used pathways for travel, we now find modern cement highways running thru the township, among which is the Wolf road rich in Indian lore and the old Sauk Trail road east of Frankfort.

Decendants of the pioneer families still reside in this section. Frankfort township was first settled by the white men in the spring and summer of 1831.

Chicago was the nearest trading point and the pioneers made laborious trips with ox teams and wagons thru the pathless prairies and the swamps. When the ox teams came to the swamp the cargo would have to be unloaded and carried thru the shoulders of the drivers and then the oxen would pull the empty wagon thru the swamp and the cargo would be re-loaded. Log cabins were used for homes. The country began to develop when better transportation was provided with the construction of the Rock Island and Michigan Central railroads thru the township. The Rock Island first began its operation of trains in October of the year 1852.

Frankfort Alumni To Hold Dance Saturday Night

The Alumni of the Frankfort public school will hold their 4th annual dance at the Frankfort Grove this Saturday night. Music by the Collegians "Red Hot Merry-makers."

Orland Park S. W. Highway Unit Is Fully Organized

The Orland Park unit of the Southwest Towns Chamber of Commerce was perfected at a meeting held in the Orland Park school auditorium Saturday night. John G. Loebe, well known Orland merchant was selected as chairman and A. C. Kay as Secretary of the unit.

Dr. W. R. Schussler, president of the Southwest Towns Chamber of Commerce presided. He gave an outline of the work which has been done in having the Southwest Highway made a reality and of the interest that is being manifested all down the state in the proposed paving of this highway from Marley to Saunemin.

Secretary Sherman S. Knox read an article appearing in last week's Gibson City Courier telling of a big meeting to be held in that city the evening of October 8th to boost the Southwest Highway.

The main issue under discussion was the completion of the Southwest Highway and especially thru Orland. The extension of the Southwest Highway to the Wolf Road west of Alpine is proposed on two routes, one being straight thru the village of Orland Park parallel the Wabash right of way to Alpine and then west to Wolf road on the Southwest Highway just completed to the Maple road at Marley and thence on south thru New Lenox, Manhattan to St. Louis.

The other route would be to run northwest of Orland thru the Forest Preserve in the rear of the Orland Park school, thence cross 143rd street by a subway then a mile thru the Stahulick farm (right of way thru this farm having already been offered free) thence along the Wabash to Alpine.

If the route thru the village is taken it will mean that the county will have to purchase the Zerbs brick building, part of the Loebe store property, the Kruspe property, the Austin Estate and part of the M. E. church property and that the buildings thereon will either have to be moved or torn down. A few of the property owners along this route object to it, while some of the property owners are willing to sell.

After listening to discussions in favor and against either of these routes, the Orland unit finally voted to recommend the northwest route to the Cook County Board but to accept any routing the county highway department is willing to make in order to get the Southwest Highway completed in Cook County by 1932. It is the hope and aim of the Southwest Highway boosters to get this highway on the state road program for 1932, that is that portion of the road outside of Cook County.

Mayor Frank Harnew of Oak Lawn and Mayor Rucies of Chicago Ridge were present and told about the paving work done in their section and what still remains to be done.

A delegation of Will County Wolf Road Boosters also attended this meeting. Dr. Schussler and Highway Commissioner Wm. Beagley promised that Wolf Road will be given attention by the Orland Unit of the Southwest Towns Chamber of Commerce and efforts made to push the paving of this highway to completion.

A committee composed by Dr. W. R. Schussler, Wm. Beagley, Adolph Zerbs, John Loebe had a conference with the engineering department of the Cook County board Tuesday and were advised to designate on the map where the Southwest highway is to be located in Orland township and that this map is to be in the hands of the engineering department this week and that the route will be surveyed in three weeks and will be paved next year.

KILLED BY TRAIN

A. J. Sullivan who served as telegraph operator at the Rock Island depot in Mokena for several months this year, and who of late has been serving as relief telegrapher at Marseilles, was killed Saturday by the Rocky Mountain Limited. Sullivan had been handling messages for another train and in some manner stepped into the path of the flier and was instantly killed. He was 35 years old. He made quite a few friends during his stay in Mokena and they were deeply shocked to hear of his sudden and tragic death.

WILL RECEIVE CAR OF COWS

Emil P. Krapp will have a car of cattle in the end of the week from Wisconsin.

Finish S. W. Paving To Marley Line

Paving of the Southwest Highway from the Wolf Road thru the E. P. Krapp farm north of Mokena to Marley with a connection on Maple road was completed last week. The connection with Wolf Road was completed Friday night. This stretch of a little over a mile of paving connects Cook with Will County and affords Cook County a decided short cut to Joliet. Work on this highway was started over a year ago but paving could not be carried on as a number of deep fills had to be given time to settle.

Paving gaps on both sides of the grade separation bridge on the South west Highway at Orland Park were completed last week.

Work on repairing the sag in the 159th street pavement east of the Wabash tracks is under way. The sunken pavement has been covered with crushed stone and screenings so traffic can continue. This pavement has only been down since last spring. It is feared that the pavement may settle still more by the time the frost is out of the ground next spring. This piece of paving has been laid over a former slough bed.

When the Wabash railroad was constructed thru the Palos and Worth section many bottomless spots were found in the right of way and many trainloads of rock were dumped in the slough beds before a solid foundation for the railroad was established.

Extend Paving South of Tinley to Lincoln Highway

Farmers residing south of Tinley Park will soon be out of the mud as work has been begun on the extension of the pavement south of Oak Park ave south of Tinley beginning at the Y and running along the Indian boundary line for about three and a half miles south to the Lincoln highway. Grading work is well under way and culverts and bridges built. This pavement will run thru the Kampe, Siebrandt and other farms and will go by the August Schmeckpeper farm.

HARVESTER COMPANY BUYS TINLEY PARK SCHOOL BONDS

The International Harvester Co., has purchased \$23,000 of the issue of \$35,000 school bonds for the new addition to the Tinley Park public school. The Harvester Co., considered the bonds A No. 1 and did not hesitate to buy them. If any one is seeking a good investment these school bonds appear to fill the bill.

Band Too Late To Serenade Tinley Park Traveler

One of Tinley Park's well known business men, George Schreiber who has been enjoying a trip to Germany this summer, arrived in Tinley Tuesday noon. Well here is a little story that has been going the rounds in regards to the reception which did not materialize. The boys say they had planned to have a fifty piece band at the depot to serenade a welcome to the returned traveler, but they failing in this, then thought of hiring Herr Louie and the hungry five, but as they had another engagement this plan was nil so they asked the "Hungry Seven" to help but they spent too much time in polishing their instruments and missed getting to the depot in time, hence Mr. Schreiber arrived home without the band reception.

Ja so geht es immer!

TINLEY PARK BUSINESS MEN PLAN CARNIVAL

A number of Tinley Park business men and Lions Club members met at the home of Paul Rauhoff Monday night to consider plans for a big carnival and festival as outlined by C. B. Sander of Tinley. The date for the big event was set for October 31st. It is understood there is to be a "Miss Tinley Park" and she is to be crowned queen in the real approved style. Further particulars of the event will be given next week.

ORLAND PARK TO PLAY MOKENA SUNDAY

The Orland Park Baseball team is going to play the Mokena team at Mokena this Sunday and a red hot game is anticipated as both teams have a strong lineup and have had decided winning streaks all summer. All the ball fans are urged to attend.

Many Candidates in Field for Will Co. States Attorney Job

Politics in Will County are beginning to claim attention. The office of states attorney will be sought for by a number of candidates. It is said that among the aspirants for this office are Charles Blinn, Frank Brumond of Joliet and Wm. McCabe of Lockport. Elmer Beihfeld, master in chancery is also said to be a likely candidate for states attorney.

R. I. To Take Off "Milk Train" Mon.

The historic "milk train" which has been operated by the Rock Island railroad almost ever since the road was built over 70 years ago, is to be taken out of service Monday morning according to announcement made this week. At one time this train used to be one of the most important local trains on the road.

When New Lenox, Mokena and Tinley Park used to be big dairy centers, extra cars used to be set out at Mokena and New Lenox for milk shipments. There used to be milk platforms between the stations for the convenience of milk shippers.

This train used to carry many passengers. With the advent of the paved highways and trucks, milk shipments were made by truck and soon there was not enough milk shipped to handle extra cars and about a year or so ago the milk platforms were removed and now as the passenger traffic on this train has fallen off, it has been decided to discontinue operation of this train. It is reported that the railroad company recently made a check of the passenger business of this train and found that only 78 passengers patronized this train on one trip and these passengers were not all from Joliet to Chicago, but many of these passengers were only for stations in between.

Thus the autos and trucks have caused fins to be written to the career of another one time popular train.

Tinley Park high school students who patronize this train going to Blue Island, Englewood and Chicago will have to go to school on the early suburban trains and could not get home before six o'clock in the evening. A petition was circulated and signed up at Tinley Park the forepart of the week and presented to the Rock Island officials, asking them not to discontinue the train on account of the school students.

Tinley Lion President Awards Prizes to Tinley Tree Growers

President A. O. Foskett of the Tinley Park Lions Club announces the following winners in the Tinley tree growing contest, who were selected by a committee from the Tinley Garden Club:

1st prize, Adults, Mrs. Lucile Beck, half dozen peony roots; 2nd prize, Mrs. Ed. Snyder, third dozen of peony roots; 3rd prize, George Hartman, one sixth dozen peony roots.

Children, 1st prize, Calvin Hirsch, one fourth dozen peony roots; as there were no other entries in the childrens class, Master Hirsch walked away with the prize without opposition.

It has come to the attention of Mr. Foskett that Mrs. Lulu Rogers was a contestant and had a fine specimen for entry, but owing to the fact that she was asked to serve as one of the judges, she generously withdrew, in spite of the fact that she had a larger tree than any of the others examined.

As an award for her action and the fine spirit shown, together with the fact that she is really entitled to first prize, the donor of the prizes, has added an extra half dozen peony roots for award to Mrs. Rogers.

The judging committee report many fine specimens of trees growing and that they anticipate a wonderful appearance of Tinley Park in a few more years, when these 4,000 Chinese Elms commence to occupy the space above our heads. The trees had a most trying season, this year with their introduction to Tinley Park, but in spite of this, have made a very favorable showing.

So thus ends Tinley Park's 1931 contribution to the Tree Planting Memorial sponsored by the Tinley Park Lions Club in response to the American Tree Assn. in honor of the two hundredth anniversary of the birth of the Father of our country, George Washington, our first president.

Swipes Car at Orland And Runs Into Road Barricade

Saturday night a certain Orland party got liquored up and went on a wild ride. A Chrysler coupe was standing in front of the Schussler garage in Orland and the joy rider helped himself to the car and went for a ride. He drove down 143rd st to Wolf road then south on Wolf road where he ran thru a road barricade and damaged the car quite badly. He abandoned the car and walked back to Orland Park. Mr. Schussler, the owner of the garage, declares he knows who the guilty party is, and states that if this party does not pay for the damage done to the car, it will be just too BAD for the joy rider.

SURVEY FOR ORLAND LAKE

Three surveyors from the Cook County Forest Preserve Department were at Orland Tuesday surveying for the proposed lake at Orland.

TINLEY GARDEN CLUB TO HOLD BUNCO PARTY

In place of the Gypsy Tea, the Tinley Park Garden Club will hold a Bunco Party in the spacious basement of the Wm. Funk home, Tuesday afternoon, Sept. 29 at 1:30 o'clock. An added attraction will be the presence of a very efficient Fortune Teller who will read your cards for a small fee. A good time and a hearty welcome for all.

Mokena School Activities

Last Friday the Mokena High School Baseball team defeated Orland High School by a score of 2-1, errors being responsible for Mokena's two runs. On the previous Friday Manhattan defeated Mokena 9 to 8. This Friday Mokena plays Orland at Orland. The game will start at three o'clock central standard time.

Boys and girls glee clubs are being organized and efforts are being made to organize a school band. The enrollment this year is 113 in the grades and 36 in the high school compared with 117 in the grades and 26 in the high school last year. Miss Doig teaches first, second, and third grades; Mrs. Ferguson fourth, fifth and sixth and Miss Krusemark seventh and eighth grades. In the high school Miss Baker teaches first and second year English, Zoology, Botany, and has charge of music. Mr. McCleary, the principal, teaches algebra, geometry, commercial geography, world history and has charge of athletics.

Permit Granted to Open Crossing At Frankfort

Authority to extend county bond is sue road No. 14 which is a part of State Aid Route 57, at grade across the tracks of the Michigan Central railroad at Frankfort street, Frankfort, Will county, has been granted to the Will county highway department by the Illinois Commerce Commission.

Upon completion of the new crossing, the commission ordered abolished the present crossing known as "The old-traveled way" located immediately west of the proposed new crossing.

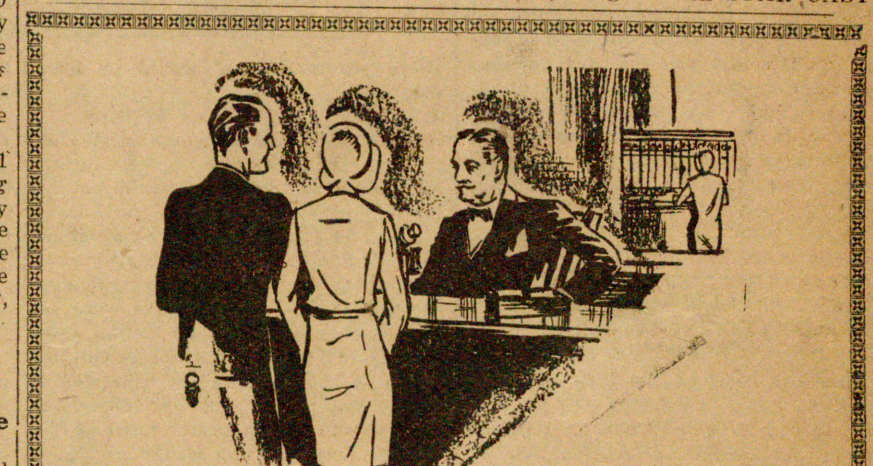

ROBBERS BREAK INTO MOKENA GARAGE

The Mokena Motor Sales garage on Wolf road south of Mokena was visited by burglars Tuesday night. Although the place was ransacked, nothing was taken. This is the second time with a few weeks that this garage has been burglarized.

Orland Park M. E. Guild To Hold Bazaar, October 1

The Ladies Guild of the Orland Park M. E. church will hold their annual bazaar on Thursday, October first. The sale will open at 3 p. m. and the supper will be served from 5 to 8 p. m.

There will be some very fine things on exhibit and for sale in the various booths. There will be the usual country store which will have every thing there is in the way of vegetables and such lines that one would find in the country store. The bakery booth will have all kinds of bakery goods. In the fancy work booth will be all kinds of fancy work and there will be the usual apron booth. Many beautiful quilts will be on display and sale. The candy booth will have all kinds of home made candy. The grab bag will have many interesting things in it for children as well as adults. Everyone is invited.

Open a Joint Checking and Savings Account

For the married set this is a great convenience. A joint account allows one to deposit and withdraw any amount stipulated when the account is opened, without the signature of the other.

Orland State Bank

TELEPHONE ORLAND PARK 61

Indict Chicken Thieves And Bank Robbers

The six chicken thieves arrested recently for robbing henhouses in eastern Will County and in Green Garden and Frankfort townships, were indicted by the Will County grand jury Monday afternoon and will go to trial this fall. The Frankfort bank robbers also were indicted.

Monee Circle To Hold Convention At Frankfort

The Monee Circle of the Evangelical church will hold a convention in the St. Peter Evangelical church in Frankfort on October 13th. The morning session will be held at 10 a. m., and the afternoon session at 1:30 p. m. In the afternoon there will be a school department where every local chairman of General Education, Religious Work, Missionary Education, Christian Stewardship, Social Welfare or Christian Citizenship can learn what is expected of her in that office.

Time To Change Saturday Night

Saturday midnight marks the changing of time from daylight saving to standard time. Be sure and change your clocks and watches or you will be an hour ahead for church Sunday morning.

Wants State Aid Road Improved

L. G. Bruder has written to the state highway department and to the office of the Supt. of Highways in Joliet calling attention to the bad condition of the state aid road running from the Lincoln highway to the north under the Rock Island rail road in New Lenox township. This highway is being made the dumping ground for rubbish. Mr. Bruder is asking that this road be made passable or be abandoned as a state aid road.

Celebrate 25th Wedding Anniversary

Mr. and Mrs. George Hauser of Mokena celebrated their silver wedding anniversary Saturday at the St. Mary hall in Mokena. About 200 guests were present and all enjoyed a fine time. Music and dancing were the features of the evening. A fine lunch was served.

ORPHANAGE TAG DAY SUCCESSFUL

Mrs. Anton Benson had charge of the tag day for the Lutheran Orphan Home in Joliet last Saturday at Mokena. She was assisted by Misses Dorothy Kraus and Eleanor Hall. The drive was quite successful.

'NORA WAKE UP'

If NORA hadn't got the idea into her head that her jolly old-fashioned IRISH mother was—Oh, well, just come and learn the rest for yourself by seeing the three act comedy-drama to be presented for the benefit of the Tinley Park P. T. A. in the beautiful new school auditorium on October 29th and 30th, 1931. Good for many laughs. ALL STAR CAST

General Pershing's Story of the A. E. F.

John J. Pershing

CHAPTER LVI—Continued

In making our dispositions for battle our older divisions, the First, Second and Forty-second, had received positions on the southern face opposite the open spaces, to enable them to flank the wooded areas quickly, thus adding the advance of less experienced units assigned to these areas. The whole line, pivoting as planned on the Eighty-second division on the right, advanced resolutely to the attack. The entire operation was carried through with dash and precision. By afternoon the troops had pushed beyond their scheduled objectives and by evening had reached the second day's objective on most of the southern front.

The division of the Fourth corps (Dickman) and those on the left of the First corps (Liggett) overwhelmed the hostile garrisons, and quickly overran their positions, carrying the fighting into the open. The German resistance on this part of the front was disorganized by the rapidity of our advance and was soon overcome. Although the enemy was expecting an attack, he did not think it would take place so soon and it therefore came as a surprise.

When the First division, on the marching flank of the southern attack, had broken through the hostile forward positions, the squadron of cavalry attached to the Fourth corps was passed through the breach. At 1:45 p. m. it pushed forward to reconnoiter the roads toward Vigneulles, but encountering machine guns in position was forced to retire.

Western Attack Slower.

On the western face of the salient progress was not so satisfactory. The Twenty-sixth division, in its attempt to make a deep advance toward Vigneulles, met considerable resistance, and except for a battalion of the division reserve had not reached the day's objective.

The French at the tip of the salient had attempted to follow up the flanks of our successful penetrations, but made only small advances. Upon the request of Gen. E. J. Blondiat, commanding the French Second Colonial corps, a regiment of the Eightieth division (Cronkite), in reserve, was sent to his assistance.

On the afternoon of the Twelfth, learning that the roads leading out of the salient between the two attacks were filled with retreating enemy troops, with their trains and artillery, I gave orders to the commanders of the Fourth and Fifth corps to push forward without delay.

Using the telephone myself, I directed the commander of the Fifth corps to send at least one regiment of the Twenty-sixth division toward Vigneulles with all possible speed.

That evening a strong force from the Fifty-first brigade pushed boldly forward and reached Vigneulles at 2:15 a. m. the 13th. It immediately made dispositions that effectively closed the roads leading out of the salient west of that point. In the Fourth corps the Second brigade of the First division advanced in force about dawn of the 13th, its leading elements reaching Vigneulles by 6 a. m. The salient was closed and our troops were masters of the field.

Could Have Passed Hindenburg Line.

The troops continued to advance on the 13th, when the line was established approximately along the final objectives set for this offensive. In view of the favorable situation created just west of the Moselle river by our successes farther to the left, a limited attack was made on that part of the front by elements of the Eighty-second and Ninetieth divisions, with good results.

During the night our troops all along the line were engaged in organizing their new positions for defense, preparatory to the withdrawal of divisions and corps troops for participation in the Meuse-Argonne battle, September 14, 15 and 16 local operations continued, consisting of strong reconnaissances and occupation of better ground for defensive purposes. Beginning the 13th, several counterattacks were repulsed. The line as finally established was: Handioment, Fresnes-en-Woevre, Doncourt, Jaulny, Vandieres.

Reports received the 13th and 14th indicated that the enemy was retreating in considerable disorder. Without doubt an immediate continuation of the advance would have carried us well beyond the Hindenburg line and possibly into Metz, and the temptation to press on was very great. But we would probably have become deeply involved and delayed the greater Meuse-Argonne operation, to which we were wholly committed.

During the fighting from September 12 to 16 the German One-Hundred and Twenty-fifth, Eighth landwehr, Eighty-eighth and Twenty-eighth divisions, reinforced the enemy's line and several other divisions arrived in reserve positions. September 16, in front of the First army, there were ten German divisions and two brigades in line and seven divisions in reserve.

French Overjoyed by Release.

Nearly 16,000 prisoners were taken and some 450 enemy guns had fallen into our hands. Our casualties num-

bered about 7,000. As the enemy retreated he set fire to many large supply dumps and several villages. The few remaining French inhabitants who found themselves within our lines were overjoyed to be released from the domination of the enemy, but many were left destitute by the burning of their homes at the very moment of deliverance.

On the 13th General Petain came by my headquarters and we went together to St. Mihiel, where the people, including children carrying French flags, gave us a welcome which may well be imagined when one realizes that they had been held as prisoners, entirely out of touch with their own countrymen, for four years, though always within sight of the French lines.

On my visit to several corps and division headquarters the following day I found all jubilant over the victory and overflowing with incidents of the fighting, reciting many cases of individual heroism among the troops.

CHAPTER LVII

In accordance with the understanding of September 2 we were now moving rapidly toward our second great offensive. Questions concerning the concentration and supply of the elements of the First army in the battle areas were being worked out by the staff of that army, who were given every possible assistance by the staff at G. H. Q.

The general plan of action of the allied armies, as agreed upon at the conference of commanders in chief July 24, was, to state it simply and briefly, that the offensive should continue, each army driving forward as rapidly as possible. The allied and American operations during the summer had resulted in the reduction of the Chateau Thierry, Amiens and St. Mihiel salients and the great offensive was now under way. Immediately west of the Meuse river the battle line had remained practically unchanged since 1917. It was on this front the American army was to play its great part.

The disposition of the Belgian, British, French and American armies on the wide front between the North sea and Verdun was such that they would naturally converge as they advanced. So long as the enemy could hold his ground on the east of this battle line frontal attacks farther west might drive him back on his successive posi-

completely covered the entire German front.

The terrain over which the attack was to be made formed a defile blocked by three successive barriers, the heights of Montfaucon, then those of Cunel and Romange and farther back the ridges of the Bois de Barricourt and of the Bois de Bourgoigne. The Meuse river was unfordable; the Aire river fordable only in places. In addition to the heavy forest of the Argonne there were numerous woods with heavy undergrowth which were serious obstacles.

These natural defenses were strengthened by every artificial means imaginable.

A dense network of wire entanglements covered every position. It was small wonder the enemy had rested four years on this front without being molested.

Hindenburg Position Is Objective.

In accordance with the principal mission, which remained the same throughout this great offensive, the main attack of the First army was to be launched west of the Meuse river, its right to be covered by the river and by the operations of the French Seventeenth corps on the east of the river, that corps being a part of our army.

Our left was to be supported by a simultaneous attack by the French Fourth army. Our attack to include the Argonne forest was to be driven with all possible strength in the general direction of Mezieres.

The first operation of our army was to have for its objective the Hindenburg position on the front Briulles-sur-Meuse-Romange-sous - Montfaucon-Grandpre, with a following development in the direction of Bazancourt-Mezieres in order to force the enemy beyond the Meuse and outflank his positions on the Vouziers-Rethel line from the east.

In conjunction with our advance, which would outflank the enemy's position south of the Aisne, the French Fourth army, by attacking successively the positions between the Aisne and the Sulpes rivers, would be able to occupy the line Vouziers-Rethel. After that it would operate in the direction of the plateau east of the Rethel-Signy-Abbaye road.

Aim at Tactical Surprise.

Our purpose was to effect a tactical surprise, if possible, overcome the enemy's first and second positions in the area of Montfaucon and (Cote Dame Marie) of his third position before the enemy could bring up strong reinforcements. It was an ambitious plan and one that would require a rapid advance of ten miles through a densely fortified zone. From an estimate of the enemy's reserves and their location it was realized that we must capture Montfaucon and seize Cote Dame Marie by the end of the second day.

It was thought reasonable to count on the vigor and aggressive spirit of our troops to make up in a measure for their inexperience, but at the same time the fact was not overlooked that

a. m. At the same time, to divert the enemy's attention elsewhere, local raids and demonstrations were made on the Meuse-Moselle front. The French Fourth army (Gouraud), to our left on the west of the Argonne forest, began its attack half an hour later.

The battle opened favorably. Our attack at that particular place and at that time evidently came as a surprise to the enemy, and our troops were enabled quickly to overrun his forward positions.

The vast network of undestroyed barbed wire, the deep ravines, dense woods and heavy fog made it difficult to co-ordinate the movements of the assaulting infantry, especially of some divisions in battle for the first time, yet the advance throughout was extremely vigorous.

Third Corps Reaches Second Line.

The Third corps (Bullard), nearest the Meuse, carried the enemy's second position before dark. The Thirty-third division (Bell), wheeling to the right as it advanced, occupied the west bank of the Meuse to protect the flank of the army. The Bois de Forges, with its difficult terrain and strong machine gun defenses, was carried in splendid fashion.

The right of the Eightieth division (Cronkite) had by noon cleared the Bois Jure in the face of heavy machine gun fire and established its line north of Dannevoix. On its left, after an all-day fight, the division forced its way through the strong positions on hill 262 and reached the northern slopes of that hill.

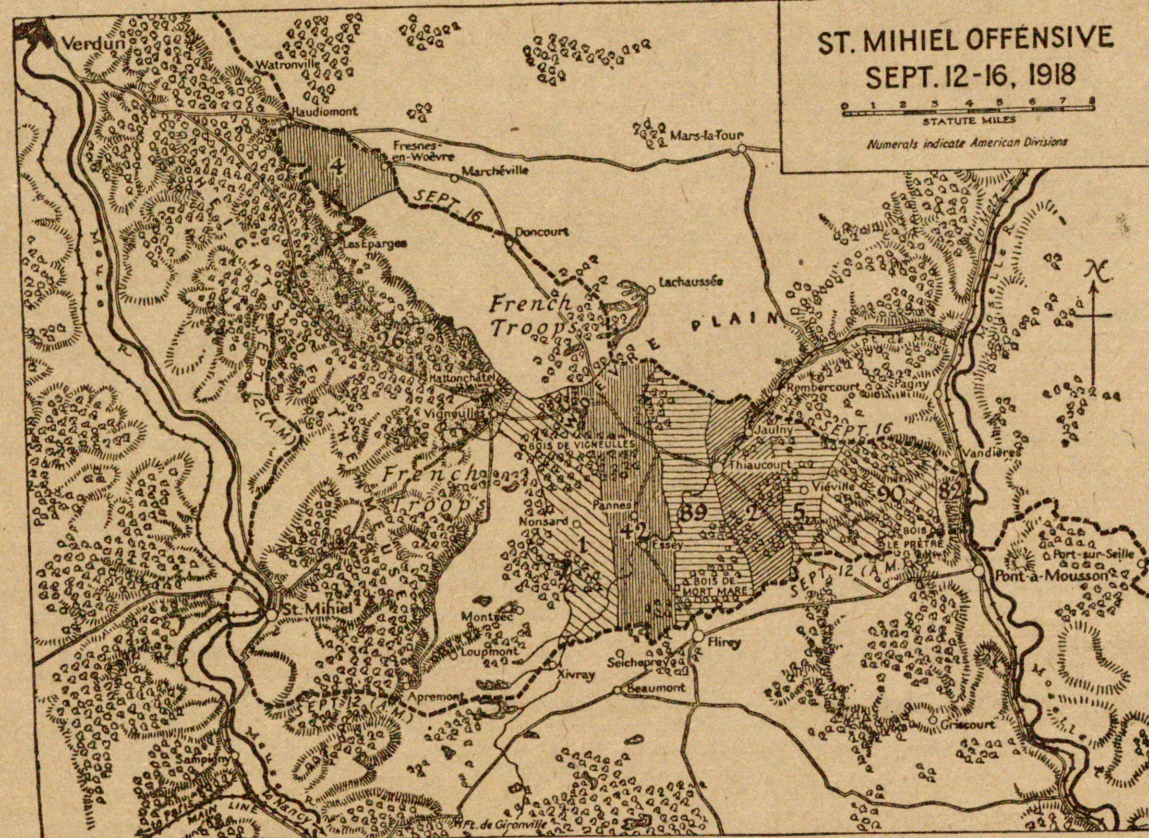

The Fourth division (Hines), on the left of the Eightieth, took Septarges and firmly established itself in the woods to the north. It was abreast of Nantillois and its left was more than a mile beyond Montfaucon, but through some misinterpretation of the orders by the Third corps the opportunity to capture Montfaucon that day was lost. Three counterattacks against the division during the afternoon were broken up.

Fifth Corps Falls Short.

In the center the Fifth corps (Cameron), with the exception of the Ninety-first division (Johnston) on its left, fell short of its objectives.

The Seventy-ninth division (Kuhn), on the right of the corps, took Malancourt, but in the open ground beyond encountered considerable opposition, and the advanced elements were not in position before Montfaucon until late afternoon. The attack of the division launched against this strong point early in the evening was met by the fire of artillery and machine guns from the southern slopes of the hill, which held up further progress.

The Thirty-seventh division (Farnsworth), in the center of the Fifth corps, after overcoming heavy machine-gun fire, pushed through the Bois de Montfaucon, and its attacks in the afternoon carried the line up to and west of Montfaucon. The left of its line, facing stiff opposition, cleaned up the woods in its front and established itself just south of Ivroly.

tions, yet a decision would be long delayed.

Yanks Face Strong Position.

His main line of communication and supply ran through Carignan, Sedan and Mezieres. If that should be interrupted before he could withdraw his armies from France and Belgium the communications in the narrow avenue which lay between the Ardennes forest and the Dutch frontier were so limited that he would be unable adequately to supply his forces or to evacuate them before his ruin would be accomplished. As our objective was the Sedan-Carignan railroad, it was evident that the sector assigned to the American army was opposite the most sensitive part of the German front then being attacked.

The danger confronting the enemy made it imperative that he should hold on in front of the American army to the limit of his resources.

Germans Strongly Fortified.

The area between the Meuse river and the Argonne forest was ideal for defensive fighting. On the east the heights of the Meuse commanded that river valley and on the west the rugged, high hills of the Argonne forest dominated the valley of the Aire river. In the center the watershed between the Aire and the Meuse rivers commanded both valleys, with the heights of Montfaucon, Cunel, Romange and of the Bois de Barricourt standing out as natural strong points. From these heights observation points

lack of technical skill might considerably reduce the chances of complete success against well organized defenders.

General Petain had already given it as his opinion that we should not be able to get farther than Montfaucon before winter.

CHAPTER LVIII

The Meuse-Argonne offensive opened the morning of September 26. To call it a battle may be a misnomer, yet it was a battle, the greatest, most prolonged in American history. Through 47 days we were engaged in a persistent struggle with the enemy to smash through his defenses.

The attack started on a front of 24 miles, which gradually extended until the enemy was being actively assailed from the Argonne forest to the Moselle river, 90 miles.

In all more than 1,200,000 were employed and the attack was driven 32 miles to the north and 14 miles to the northeast before the armistice terminated hostilities.

The outstanding fact that I desire to emphasize is that, once started, the battle was maintained continuously, aggressively and relentlessly to the end.

All difficulties were overridden in one tremendous sustained effort to terminate the war then and there in a victorious manner.

After three hours' violent artillery preparation the attack began at 5:30

The Ninety-first division (Johnston) overcame strong initial resistance and advanced rapidly to Epinonville, which it entered but did not hold. Crossing into the sector of the Thirty-fifth division, during the day it occupied Very.

First Corps Makes Progress.

On the left of the army the First corps (Liggett) made excellent progress. The Thirty-fifth division (Traub) cleverly captured the strong position of Vauquois and took Cheppy against stubborn opposition. Elements of the division reached the corps objective east of Charpeny, but were soon withdrawn to a line west of Very. On the left the division captured that part of Varennes east of the Aire river, but was held up between Varennes and Cheppy. At this time a fresh regiment took the lead, giving a new impetus to the attack, and pushed the line forward to the high ground south of Charpeny.

In the Twenty-eighth division (Muir) the right brigade captured the western half of Varennes and continued about a mile farther. The left brigade, facing the eastern spurs of the Argonne, which constituted the enemy's chief defense of that forest, was unable to overcome the intense machine-gun fire from the vicinity of Champ Mahaut. The Seventy-seventh division (Alexander) in the difficult terrain of the Argonne made some progress.

(TO BE CONTINUED.)

STAGE COACH TALES

By E. C. TAYLOR

From Stage Driver to Cabinet

JEREMIAH M. RUSK, who later became governor of Wisconsin and still later was first secretary of agriculture of the United States, was a picturesque stage coach driver of the early days in Wisconsin.

Almost a giant in stature, and heavily bearded, he was a leading personality in the state even when he was handling the reins behind two or three span of horses over the bumpy, marshy roads of that new commonwealth.

Tales of his muscular prowess in those early days made him famous, but his chief claim to fame, otherwise, was that he probably was the only stage coach driver who did not drink. Drivers as a lot were moral men, noted for their integrity, and famous for their seeming aversion or swearing and cursing. But with the exception of Rusk, all of whom there are any records, drank. A man's size glass of whisky or brandy was the first thing they asked for when the coach stopped at the taverns along the route, and in winter, when they descended half frozen from their high seats where they had been fighting gales and icy temperatures for hours, it probably was needed to get their blood circulating again. But Rusk never took a drop, even after a long stretch of driving through the bitterest cold. He was one of the early ardent prohibitionists.

As Rusk's stage coach neared Virgo one day, a horse fell ill. Rusk saw that it could not pull its share of the coach any longer, so he tied it to the coach, seized the neckyoke himself and with his great strength helped to pull the coach into the next town.

Rusk was reticent about his physical prowess, and was almost bashful when anyone mentioned it, but he often told a story on himself about how he, a teetotaler, had to buy drinks for a tavernful of people.

One cold day, he stopped his stage coach at a tavern near Prairie du Chien, Wis., so the passengers might warm themselves.

When they all trooped into the public room, Rusk noticed an innocent looking horn on the counter. The young driver was invited to blow it. He did. But instead of musical notes, there issued from the horn a quantity of flour that covered his face. Everybody laughed, and Rusk had to "set them up" for every one in the place.

Rusk began driving a stage coach when he was only sixteen years old. He drove for McNeill, Moore and company, famous stage coach operators of Columbus, Ohio. He migrated to Wisconsin in 1853, and drove coaches there until the Civil war broke out.

Rusk raised a regiment of volunteers and was commissioned a major in the Union army. He took part in the battle of Vicksburg, and in August, 1863, was promoted to lieutenant colonel.

He was with Sherman in the Meridian campaign, and displayed such great gallantry in the battles around Atlanta, Ga., that he was breveted a brigadier general.

After the Civil war, he went back to Wisconsin, where he entered politics. He was elected a member of congress in 1871, and served in the national house of representatives until 1877.

In 1882, Rusk was elected governor of Wisconsin, and was continued in that office until 1889.

In the latter year President Harrison appointed Rusk to his cabinet, and the tall former stage coach driver became the nation's first secretary of agriculture, a branch of the executive department of the federal government which congress had just created. He served in Harrison's cabinet until Grover Cleveland succeeded Harrison in the Presidency in 1893.

Birds' Songs Tell Time

Clocks are not necessary to give the time in the morning if one understands the songs of the birds, according to a German naturalist who has just completed a schedule of offerings by feathered songsters. He says the chaffinch sings at about 1:30 on summer mornings and the blackcap calls an hour later. Between 2:30 and 3 o'clock the quail give their call, while the hedge sparrows are heard about 30 minutes later. The blackbirds are next, followed by larks, the black-headed titmouse, and finally the sparrows start between 5 and 5:30.

Lincoln Mementoes

The original plaster casts of the face and hands of Abraham Lincoln and also the first bronze casts of the face mold and of the hands were presented to the National museum on January 25, 1888, by a committee comprised of the late Augustus Saint-Gaudens, Thomas B. Clarke and Richard W. Gilder, acting for the subscribers to the fund collected to finance the making and sale of the casts. They were purchased from Douglas Volk, son of the sculptor, Leonard D. Volk, who made them from the living face and hands of Lincoln.

Brutal Retort

"It was the sweetest hat," gushed Mrs. Penn, "and when the milliner told me I could have it for a mere song, I ordered it at once."

"A case of mistaken identity," he said quietly. "The woman evidently thought you were a famous singer."

Lesson for September 27

REVIEW: THE SPREAD OF CHRISTIANITY IN ASIA

GOLDEN TEXT—"And when they were come, and had gathered the church together, they rehearsed all that God had done with them, and how he had opened the door of faith unto the Gentiles."

PRIMARY TOPIC—Giving the Gospel to Asia.

JUNIOR TOPIC—The Spread of the Gospel in Asia.

INTERMEDIATE AND SENIOR TOPIC—Early Christian Triumphs.

YOUNG PEOPLE AND ADULT TOPIC—Christianity Becomes a World Religion.

The interests of the quarter are so varied, the personalities brought to view so interesting, that the grade of the class and the genius of the teacher will readily determine the method of review. Two methods are suggested for senior and adult classes. Assignment of work a week in advance is required in both cases:

1. A study of the persons actively concerned in the lessons with the object of discerning the strong and weak points in the character of each.

2. A summary of the facts and teachings of the lessons for the quarter. The following suggestions are offered for the second method:

Lesson for July 5.

The missionary program is for the gospel to be preached to the whole world, beginning at Jerusalem. The supreme obligation of the Church is to evangelize the world. This can only be done in the energy of the Holy Spirit.

Lesson for July 12.

After the Spirit came upon the disciples at Pentecost, their supreme impulse was to preach the gospel. In spite of opposition, even imprisonment and threatened death, the disciples preached Christ in the energy of the Holy Spirit.

Lesson for July 19.

The primitive Church spent much time in prayer. The Spirit of God was upon them. Therefore, they boldly testified for Christ and systematically cared for the poor and needy.

Lesson for July 26.

Christianity spread by persecution. Christ declared himself to be the way, the truth, and the life. Missionary endeavor is but the life of God expressing itself through redeemed men by the Holy Spirit. Christianity is therefore indestructible.

Lesson for August 2.

In taking the gospel to the Samaritans we see the broadening scope of the Church. The leader in this work of evangelizing is Philip, one of the seven deacons. He seems to have been the only one ever called "evangelist." If the world is ever to be evangelized, it must be done through the activities of the laity.

Lesson for August 9.

Saul was arrested in his mad effort to stamp out Christianity by the direct interference of the Lord. His conversion illustrates the transformation of the Jewish nation. One of these days the multitudes of that nation shall see Jesus Christ, their Messiah. Penitently and enthusiastically they shall proceed to complete the task for which they were ordained.

Lesson for August 16.

Gracious justification by faith is the dynamic for right living. The one thus experiencing the life of God through faith will manifest the fruit of the Spirit, living a temperate life.

Lesson for August 23.

In the conversion of Cornelius we see the missionary program widening to embrace the Gentiles. In this connection the Holy Spirit was poured out anew.

Lesson for August 30.

The sending out of Barnabas and Saul marks the beginning of foreign missions as the deliberately planned enterprise of the Church. The Holy Spirit calls and sends out missionaries.

Lesson for September 6.

When foreign missionary work began in earnest, Saul took the place of leadership, since he was called to be the apostle to the Gentiles.

Lesson for September 13.

The treatment accorded Paul in his missionary work shows the attitude of the world toward Jesus Christ. Such behavior reveals the awful need of the saving power of the gospel.

Lesson for September 20.

The speech of James at the Jerusalem council shows the outline of God's plan. It is through the preaching of the gospel to take out from the Gentiles a people for his name, which is now going on. Afterward Israel, as a nation, shall be converted, following which shall be the conversion of the whole world through the agency of converted Israel.

No Man Is a Blank

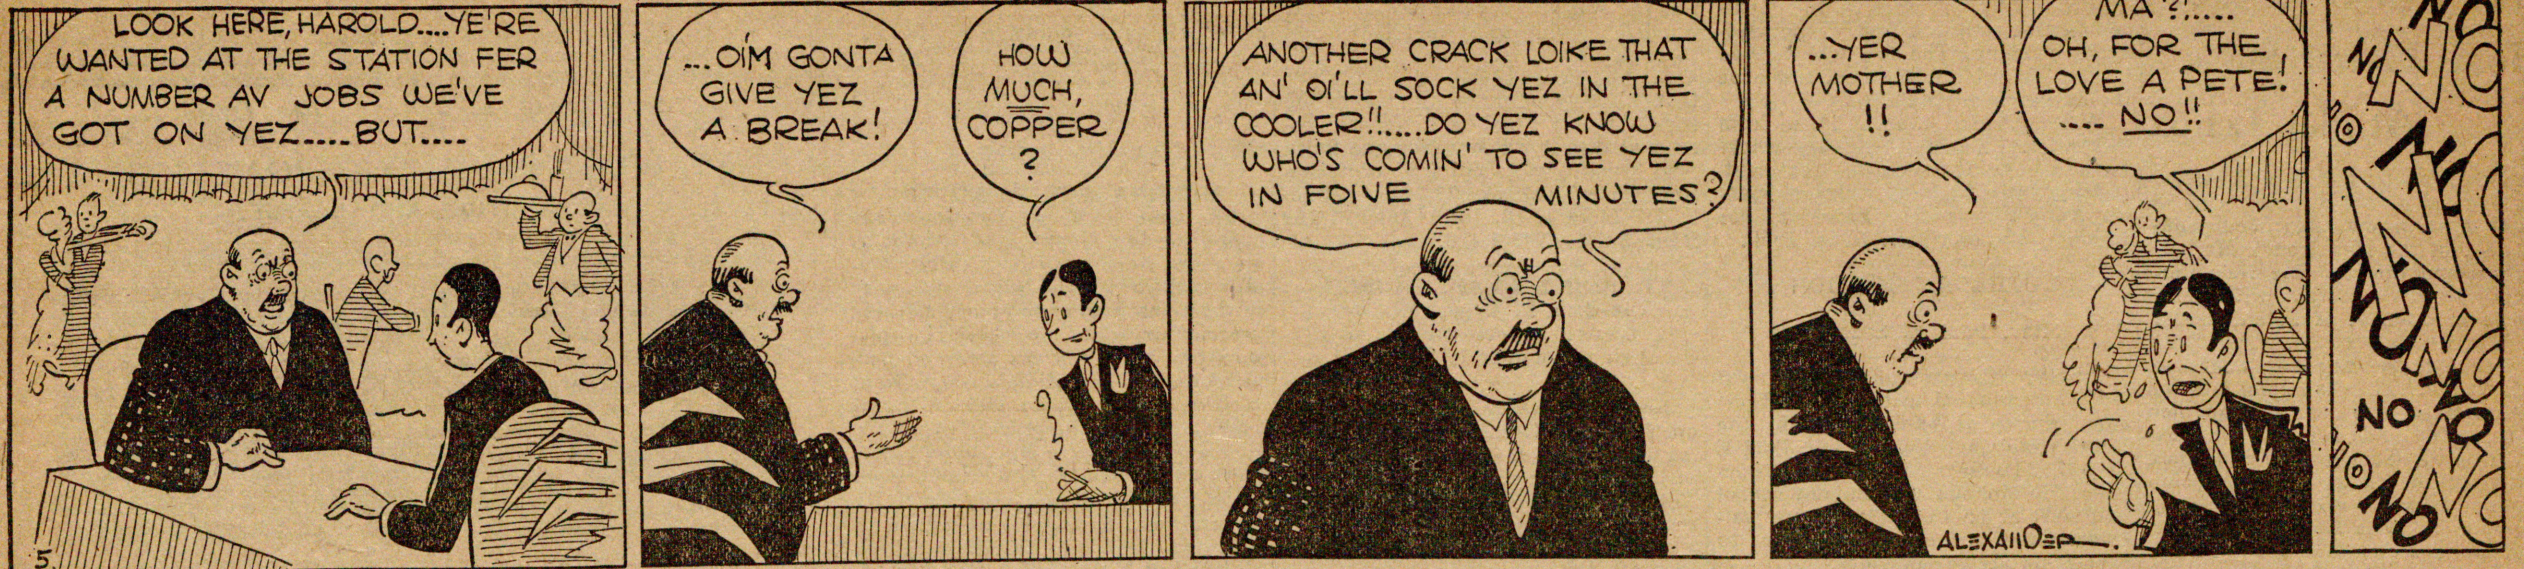

"Every man is a missionary, now and forever, for good or for evil, whether he intends it or not. He may be a blot radiating his dark influence outward to the very circumference of society; or he may be a blessing, spreading benediction over the length and breadth of the world; but a blank he cannot be."—Doctor Chalmers.

"WINDY" GILLS, PVT. - IN THE SIEGE OF HILL 27 PVT. GILLS SHOWED UTTER DISREGARD FOR THE TEMPTING FRIED CRULLERS OFFERED BY THE ENEMY, BUT STUCK TO HIS ARMY. THOUGH THrice TEMPTED HE CONTENTED HIMSELF WITH BREAD AND BUTTER. HE NOW WEARS THE WAR CROSS.

"SPARKY" SCHULTES, SGT. - WHO, IN THE OUTPOST NEAR HILL 23, WAS SUBJECTED TO THE INSULTS OF THE ENEMY. THIS SGT. MAINTAINED HIS CHARACTERISTIC COOLNESS THROUGHOUT BY MERELY STICKING OUT HIS TONGUE. THE MEDAL OF VICTORY WAS CONFERRED ON HIM.

BYRON STILLWELL, PVT. 1ST CL. - DURING A HEAVY BOMBARDMENT ON THE AFTERNOON OF DEC. 6TH. THIS PRIVATE REFUSED TO LEAVE HIS DUGOUT WHEN HIS COMRADES RETREATED TO THE REAR IN THE MIDST OF THE BARRAGE. DECORATED WITH THE CROSS OF THE ALLIED BAZAR. ONE EXTRA STAR FOR OVERTIME.

DINNEY DUNN, PVT. - DURING THE SIEGE OF HILL 23. THIS SOLDIER WAS THrice CALLED BY HIS MOTHER, BUT STUCK TO HIS POST AND REMARKED THAT THE VOICE OF DUTY CALLED LOUDER. THE DISTINGUISHED SERVICE ORDER WILL BE PINNED ON HIM IF HE EVER GETS OUT OF THE HOUSE AGAIN. HE HAS ALSO BEEN DECORATED WITH MANY "PALMS". HIS WOUNDS ARE HEALING RAPIDLY.

County Club League Holds Flower Show At New Lenox

Approximately 200 women attended the County Club League triannual and flower show, held Wednesday Sept. 16, in the New Lenox Methodist Episcopal Church. The New Lenox club acted as hostess, with Mrs. George McGovney, of Joliet, presiding. The meeting was opened with the pledge to the flag led by Mrs. A. F. Alexander. The club song was led by Mrs. Boyd of Joliet, accompanied by Mrs. Ada Orbeson, of Channahon, Mrs. L. Warner of New Lenox gave a welcome after which the club members sang an original greeting composed by Miss Harriet Francis. After the secretary's and treasurer's reports were given, there were messages from various chairmen of the league.

The Public Service First Aid team composed of five men closed the morning session with a demonstration showing prone method of resuscitation, and various methods of bandaging wounds. Mrs. R. Osmus rendered a vocal selection after which dinner was served by the Ladies Aid Society.

The afternoon session opened with the club song followed by a report of the flower show winners, by Mrs. J. Andrews of Frankfort. Mrs. G. J. Arbeiter and Mrs. Lewman, both of Joliet, were judges.

The resignation of the president, Miss Emma Rathje of Peotone, who is ill, was announced. Mrs. Van Horn has called a board meeting to be held at the Public Library, Sept. 29 at 1:30 o'clock for all presidents and delegates.

Miss Ardis Jane Corp gave two readings, Mrs. W. Hoover of Lockport sang two vocal selections and an art talk was given by Miss Lucille Larsen of Joliet.

Mrs. P. L. Paddock of Homer announced that the Homer Club was winner of the attendance banner, having 50 per cent of its members present at this meeting.

Mrs. Gladys Prutts of the state household science department gave a course on "The Home Makers Beauty Culture".

All first prize winners were given a lily bulb and all others a packet of seeds. Following is the list of first prize winners: flowers, Mrs. Anna Brentz, of Channahon. Wild flower bouquet, Laura Morris. Winter bouquet, Mrs. Ed. Johnson of Joliet. Unusual plants, Mrs. L. Drake. Wall-pocket roses, Vera Osums. Gladioli, sweepstakes, Mrs. R. Devore. Zinnias, Mrs. G. Andrews, Frankfort. Asters, Mrs. R. Devore. Snapdragons the Marley Club. Tomatoes, Mrs. J. Clark of Frankfort. Peppers, Mrs. G. Andrews. Peaches, Mrs. Bessie Strausburg, and Pears, Mrs. G. Andrews.

Miss Mary Houbolt underwent a minor operation in Silver Cross hospital Monday. She has had several operations just recently and will not be able to attend High school until

January.

A small fire occurred in the Mexican houses south of New Lenox Saturday evening. The fire was started in the kitchen but the real cause of it has not been found.

Walter Osmus returned home from Silver Cross hospital Thursday where he had been for medical treatment. Miss Julia Fink of Chicago spent the week end in the home of her parents, Mr. and Mrs. H. A. Fink.

LUTHERAN MISSION
New Lenox, Illinois.
Rev. Paul E. Schauer.

Sunday afternoon divine services will be conducted in the Grace Episcopal church at 2:00 o'clock in the English language by the Rev. Paul E. Schauer, Pastor of the Lutheran church in Mokena. The Sunday school will meet at 1:00 o'clock. All are welcome. Come and hear about how to save your life for eternity.

MOKENA

IMMANUEL LUTHERAN CHURCH
Mokena, Illinois.
Rev. Paul E. Schauer, Pastor

A special Mission service will be held in the Immanuel Lutheran church Sunday morning at 10:00 o'clock. The service will be in the German language and the Rev. Lach of Orland Park, Ill., will preach on the Great Mission Command given by Christ Jesus Himself. The Sunday school will meet at 9:00 o'clock.

Another special Mission service will be held Sunday afternoon at 2:00 o'clock. The service will be in the English language and the Rev. L. J. Schwartzkopf of Homewood, Ill., will speak of the Missions in China. The Rev. Mr. Schwartzkopf being once a missionary in China. During the afternoon service, the mixed choir of St. Peter's Lutheran church of Joliet under the direction of Mr. O. H. Schumm will sing. Also Mr. Marvin Meyer a student of music will sing. The entire community is invited to the services. Come.

The Gospel. Lutherans teach that

Let's you and I figure on that work you wanted done while prices are low. Honest work at honest prices. Work done only by experienced men.

David Kolber, well known Mokena hardware merchant, underwent an appendicitis operation at the Silver Cross hospital, Joliet Friday afternoon. He is convalescing nicely.

E. P. Krapp and John Muff of Matteson have been in Wisconsin the past week buying up milk cows.

MOKENA P. T. A. NOTES

The first P. T. A. meeting was held Tuesday, Sept. 22nd. About 15 members were present. Another loyalty picture will be given this year to the room having the most mothers present at each meeting. The picture for last term was awarded permanently to Miss Doig's room. Next meeting will be held Oct. 27th, at 3:30 p. m. in the school gym. We would like to have all mothers and those interested in the school work to be present.

Mrs. Raph E. Coler entertained 38 ladies of the First Christian church of Joliet at a Silver Tea Tuesday afternoon at her home.

Mrs. A. I. Martin, Mrs. John Potter and Mrs. W. B. Rigg gave reports of the state convention of Christian churches which they attended in Decatur last week.

Following the social hour, tea and cakes were served by the hostess. Out of town guests were Mrs. C. H. Austin of Waterville, Minn., and Mrs. W. H. Birch of Milwaukee, Wis.

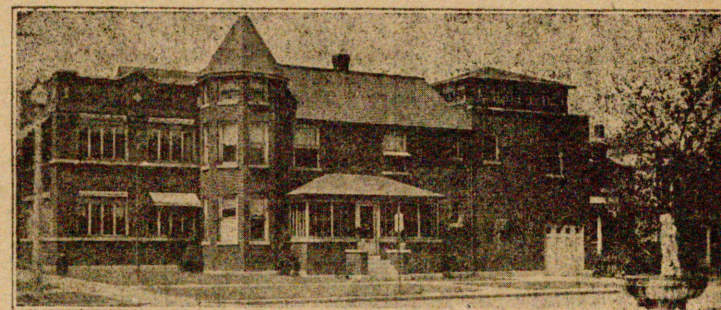

Thomas Homerding, Sr., was taken ill quite suddenly Tuesday night. He is somewhat improved.

Mr. and Mrs. Joe Kolber are planning to spend the coming winter in Florida.

A STORY OF PRIVATE INITIATIVE AND LOCAL CAPITAL

Chapter XIII

ELECTRICITY FOR THE FARM

YEARs ago when farmers were hitching up their best buggies and driving to town for a Sunday afternoon visit, they discovered that their city cousins were not using kerosene lamps any more. They marveled at the little switch that flooded a room with electric light. And, returning home, they envied this new invention that had been added to all the other conveniences of city life.

Today things are changing. Electric service lines no longer stop at the city limits. They parallel hundreds of country roads. They branch off to deliver electricity to thousands of farms in northern Illinois.

Of course this extension must come slowly. It is expensive work. In towns and cities, homes are compactly grouped twenty or more to the block. But in the country they are scattered perhaps two or three to the square mile. A file of wooden wire-strung poles that in the city can serve hundreds of families might, in the country, serve only six. And the cost of constructing the line is the same.

So that it might cooperate with farmers to the fullest extent in making electric service available, the Public Service Company began studying maps of its rural territory. Three years ago it introduced a "Five Year Plan" for farm electrification. It calls for an expenditure of \$1,000,000.

In 1933, when the program is completed,

rural lines will penetrate into most of the important farming sections of the seventeen counties served by the Company. Short extensions from these "artery" lines can then bring service to thousands of additional farms in northern Illinois.

Once available, this electricity can find plenty of work to do. Far more than merely replacing kerosene lamps and lanterns. It provides heat for cooking, cold for cooling. It provides power for speeding through most of the farm's tedious chores—in the barns and farmyard as well as the house.

To demonstrate the possibilities of electrified farming, the Public Service Company operates a model farm in Lake County, a few miles west of Mundelein. This 80-acre tract is open for inspection every day. Here electric motors may be seen pumping water, grinding grain, cutting ensilage and filling the silo, milking cows and hatching chickens. . . . Advice on all phases of farming is given out by college-trained experts. Regular educational meetings are scheduled for the discussion of timely problems.

Profiting from the Company's active interest in rural electrification are more than 8,000 farms in northern Illinois now enjoying electric service. In their homes these farmers are enjoying big-city comforts and conveniences. In their barns they are letting this new hired man save time, labor and money.

PUBLIC SERVICE COMPANY OF NORTHERN ILLINOIS

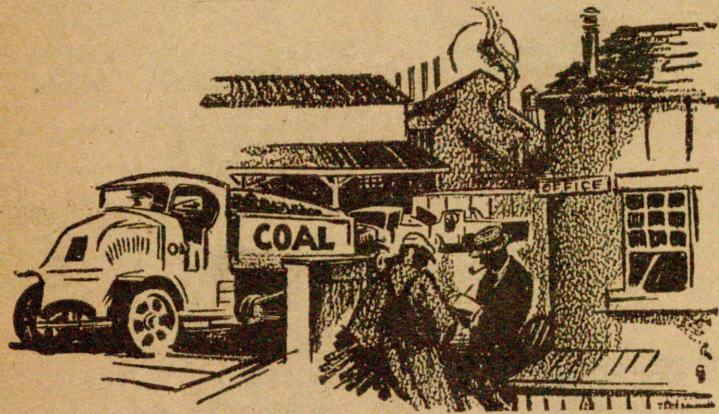

This is the thirteenth of a series of stories chronicling the development of the Public Service Company of Northern Illinois and the service it is bringing to the area into which Chicago is growing. \$49²⁰
CASH
(plus nominal installation charge)

or a small down payment
will put this gas range in your kitchen

Here's a brand-new recipe for
PICKLED CRAB APPLES
from our Home Service Kitchen

4 pounds crab apples
2 cups vinegar
5 pounds sugar
5 sticks cinnamon
1 tablespoon whole cloves

Wash the crab apples. Remove blossom end, leaving stems on. Put first a layer of apples in a stone jar and then a layer of sugar and spice until you have used all the ingredients. Cover tightly with heavy paper. Bake in a slow oven (250° F.) for 3 hours. Store in same jar. (This recipe fills a 2-gallon jar.)

You'll know this is a bargain as soon as you see it... a four-burner gas range with both a baking and a broiling oven, and a roomy drawer for pots and pans... all finished in smooth porcelain enamel. Your choice of stippled green, cream or marble. An automatic lighter lights the surface burners. And there is a special "simmering burner" for slow cooking. See this new Crown Gas Range today at your Public Service Store.

Your Public Service Store and your Local Range Dealer are also featuring many other popular-priced gas ranges this month.

"Why My Next Car will be A FORD"

WHEN you buy a Ford there are two things you never have to worry about. One is reliability. The other is long life. Here's an interesting letter from a Ford owner in North Carolina:

"My Ford was purchased May 8, 1928, and has been run 121,767 miles. It has never stopped on the road for repairs of any kind whatsoever except punctures.

"The brakes were relined at 101,000 miles. My gas mileage averaged 21 miles to the gallon, and on tires, 19,000 miles per tire. I travel over all kinds of road conditions—mountainous and flat.

"I consider this a wonderful record and I assure you my next car will also be a Ford."

This is just one of many tributes to the reliability and long life of the Ford. A Ford owner in Iowa tells of driving his Ford 73,000 miles in a single year. Another writes of 120,000 miles of good service.

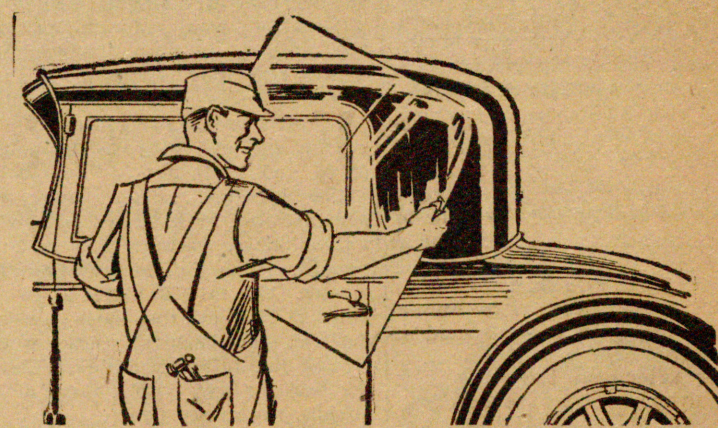

Think ahead when you are considering the purchase of an automobile and consider what it will be like after thousands of miles of driving. Will you still be satisfied? Will you still say "it's a great car"?

If it's a Ford, you know everything will be O. K. It will be taking you there and back in good style, just as it has always done. And you will have saved many important, worth-while dollars in cost of operation and up-keep and low yearly depreciation.

FIFTEEN BODY TYPES

Viking Ship Reaches Chicago

Here is the Viking ship Roald Amundsen docked in the Chicago river after a voyage of 15,400 miles from Norway. Manned by a crew of three men, it followed the route of Columbus to America and then sailed up the St. Lawrence river and through the Great Lakes. The Roald Amundsen is built on the plans of an Icelandic vessel of about 1000 A. D.

A Quiet Vacation

By THOMAS ARKLE CLARK
Dean of Men, University of Illinois.

They had come up to Cape Cod from New York to the inn where I was staying to have a quiet vacation. They had chosen a good place, for Provincetown is as uneventful and as near stagnation as any place one could desire. Telephones are the exception rather than the rule, and nothing happens excepting that the world turns over once a day. Frost was a publicity man and Schenck a stock broker. Frost had never had a real vacation before, he said, and his companion had been working steadily ever since President Wilson had declared war against Germany. But they certainly were going to have a quiet time for the next few days, they were prepared to tell the world.

They went to a show the first night; they took the bus out to the breakwater the next morning; they looked through the illustrated magazines on the living room table in the afternoon, and then they began to grow restless, and a little later to talk business. It wasn't a half hour until Frost was working out another publicity scheme, and Schenck was giving directions to the home office over long distance half the afternoon, and wiring various people what and how to do. Their minds were so full of business that they found no time for quiet or for rest. When we were not regaled

Type to Title

James Wellington, wandering printer, who learned in the composing room of the News-Globe in Amarillo, Texas, that his father, Ormsley Augustus Wellington, had died leaving him heir to the original estate of the duke of Wellington, of whom he is a direct descendant. The death of his father makes him Lord of Nenagh, County of Tipperary, Ireland. He has sailed to take possession of his new property and title.

on new methods of publicity, we were given advice on the stock market.

They had come up to the Cape to have three weeks of a quiet vacation, but before three days they were doing business as enthusiastically and as regularly as if they had been in their little offices in New York, and by the end of the week they were ready to go back. They didn't know how to rest; they didn't enjoy quiet; there was really nothing in a vacation for them, for they had one-track minds with no switches.

It takes considerable training and not a little experience to enjoy a quiet vacation. One learns this as he learns other things—by regular practice and by beginning early in life.

Colored Lacings

A nice color touch to white two-eyelet oxfords this summer is introduced in colored grosgrain ribbon lacings. For a costume worn with red accessories merely take out your white lacings and replace them with red ones for the occasion.

Measure Man's Power in Series of Tests

Public Health Service Puts 500 Through Paces.

Washington.—How strong is a man? The answer has just been made by the United States public health service through a series of tests given to 500 men. Generally, heavily built men were found to be stronger than slender men of the same weight.

The tests were made to ascertain the pulling, pushing, handgripping, lifting and lung power of men between the ages of twenty and thirty-four, between the weight of 120 and 169 pounds, and between the heights of 63 and 70 inches.

The greatest pulling power was demonstrated by men in the heaviest weight class, between 160 and 169 pounds. Men in the two heaviest classes, 150 to 159 and 160 to 169 pounds, tied as the most powerful pushers. In each of these weight groups the taller men proved to be the best pushers, with a force of 121 pounds, the record figure.

In the handgripping contest the tallest and heaviest men gave the most powerful hand grips, with a force of 108.48 pounds. But the shortest men in the heaviest group were the most powerful lifters, lifting on an average 519.2 pounds.

The men having the greatest lung power were found among the shortest in the 150-159 pound class. Their lung force was measured at 154 millimeters.

So far as general strength went, it was found that the taller men were

POTPOURRI

The Third Day

The word "Tuesday" is based on the name of the Norse god of war, Tyr, the son of Woden, from whence comes the word "Wednesday." The French call Tuesday "Mardi," honoring Mars, the Roman war god. There is a "Shrove" Tuesday in the church calendar, it being the Tuesday before Lent.

(© 1931, Western Newspaper Union.)

All Around the House

Bread should be cut thicker when used for toast or when sauted.

Spiced grape jelly with venison is another delightful accompaniment.

Small patty shells or cream puffs filled with a mixture of fruit and whipped cream make most delicious desserts.

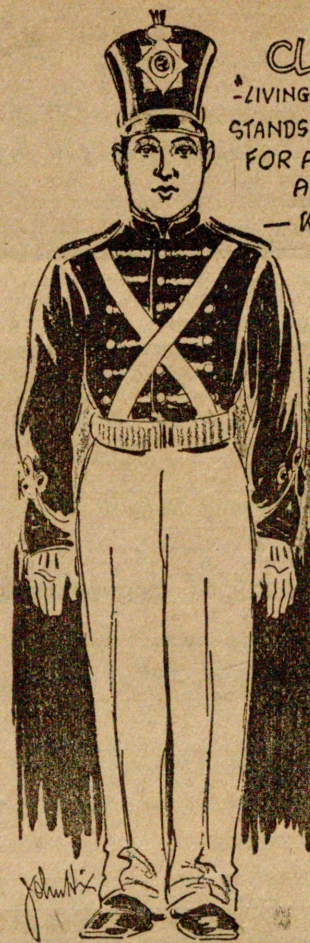

Corn on the cob roasted in the campfire tastes like no corn cooked in any other way. Leave a few of the husks on and bury in the hot ashes. Serve with plenty of butter, pepper and salt.

Cup custards carry well if one likes to add to the menu. Fresh fruits and a glass can of fresh cooked green peas well seasoned and served cold are always enjoyed, or they may be carried hot or reheated.

Father Sage Says:

Another optimist is a bridegroom who has already begun to plan for his tenth wedding anniversary.

Ancient Fossils Common in U. S.

United States Fertile Field for Paleontologists.

Washington.—The discovery in Texas of the dorsal armor of a giant phytosaur, a crocodile-like creature which lived more than 50,000,000 years ago, emphasizes the fact that the United States is still a fertile field for paleontologists seeking the fossils of prehistoric animals. Traces of many species of these monsters have been found from time to time.

Judging from the number of tracks found, the dinosaur, or "terrible reptile," seems to have been the most common in all parts of the country. Beside the Connecticut river near Northampton are preserved dinosaur tracks said to be the most perfect ever found. Nearer New York, at Woodbridge, N. J., dinosaur tracks were discovered last year measuring 20 inches across the toes. They are thought to date back to the cretaceous period of the Mesozoic age.

The haunts of the dinosaur in New Jersey were first discovered, however, in 1858, and a mounted skeleton is in the State museum at Trenton. In the western states and in the Canadian province of Alberta dinosaur bones have been most frequently found and most easily excavated. Some huge tracks, 38 inches long, have been discovered in Colorado; and in Dinosaur canyon, near Flagstaff, Ariz., 300 tracks were found by one expedition. One of the largest skeletons of this beast was found in Utah in 1923—the diplodocus of the species. This specimen was 71 feet long and the pieces discovered weighed about 52,000 pounds. This creature is supposed to have lived 170,000,000 years ago.

Mastodons, it is believed, were abundant here about 25,000 years ago, whereas this animal was thought to have become extinct in Europe 1,000 centuries back. Mastodon teeth 7 inches long have been discovered in the ocean off the New Jersey coast; and the vicinity of Niagara falls has furnished a fertile field for such discoveries. Near Medicine Bluff, Wyo., was found the skeleton of one of the largest of the prehistoric reptiles, the brontosaurus, or thunder lizard, now in the Peabody museum at New Haven. When alive, its weight is estimated to have been about 40 tons, and it lived about 120,000,000 years ago. The jaw of a titanothere, to which family belong the modern horse, tapir and rhinoceros, was found in the White River Bad Lands of South Dakota in 1846.

Excavation Reveals Roman Jig-Saw Puzzle

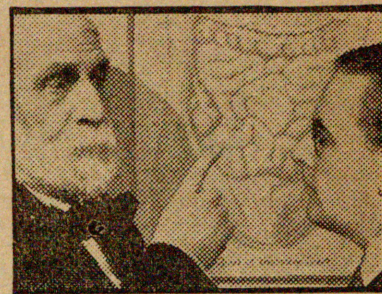

London.—Excavations beneath the new building of the Royal Bank of Canada in Lothbury, E. C., have resulted in the discovery of a 1,800-year-old jig-saw puzzle to Roman pavement.

Many pieces of the old puzzle are missing, but there has emerged a picture of the substantial house of some Roman citizen.

Archaeologists are now studying the jig-saw puzzle and other sections of tessellated paving found in the area.

Wrong Idea That Each Day of Week Is "Holy"

It is often said that every day of the week is observed as the Sabbath or set aside as a holy day by some religious sect or people. Such is not the case. Friday is observed by a portion of the Moslem world; Saturday by the Jews, Seventh Day Adventists, Seventh Day Baptists and several other Christian sects; Sunday by the majority of Christians; and Tuesday by the sect of Moslems which prevails in Persia. There are no religions or sects at the present time, so far as we have been able to learn, which, according to our calendar, observe Monday, Wednesday and Thursday as the Sabbath. Even a large portion of the Mohammedans, particularly those in Turkey, have abandoned Friday in favor of the Christian Sunday. Many years ago some writer made the broad statement that every day in the week is set apart by some people as their Sabbath. He enumerated the holy days of the peoples as follows: Sunday is observed by most Christians; Monday by the Greeks; Tuesday by the Persians; Wednesday by the Assyrians; Thursday by the Egyptians; Friday by the Mohammedans, and Saturday by the Jews. This is a curious hodgepodge of fact and fiction. The enumeration is absurd, because the Egyptians, Greeks and Assyrians (whoever they may be) are nearly all Christians or Mohammedans of one sect or another. Evidently the writer, in order to prove his point about the "perpetual Sabbath," included certain ancient religions now defunct. At any rate, his assertion about every day being the Sabbath of some religion is still frequently repeated by careless writers as representing an interesting fact.—Pathfinder Magazine.

POISON in Your bowels!

Poisons absorbed into the system from souring waste in the bowels, cause that dull, headachy, sluggish, bilious condition; coat the tongue; foul the breath; sap energy, strength and nerve-force. A little of Dr. Caldwell's Syrup Pepsin will clear up trouble like that, gently, harmlessly, in a hurry. The difference it will make in your feelings over night will prove its merit to you.

Dr. Caldwell studied constipation for over forty-seven years. This long experience enabled him to make his prescription just what men, women, old people and children need to make their bowels help themselves. Its natural, mild, thorough action and its pleasant taste commend it to everyone. That's why "Dr. Caldwell's Syrup Pepsin," as it is called, is the most popular laxative drugstore sell.

Youthful Feet Recalled

It was 78 years ago that Frank N. Davis, of Calais, and Isaac H. Johnson, of Deering, Maine, ran up the 294 steps of the Bunker Hill monument without stopping or touching the rail. After an hour's rest, during which they cut their initials on the Adams cannon, they came down the same way—on the run.

Men who are really he-men are scarcely aware of it. They are just themselves.

Those who can't make money look on those who can as no less than magicians.

Possibly every one prefers a shorter week to a shorter day.

FOR BURNS
HANFORD'S
Balsam of Myrrh

W. N. U., CHICAGO. NO. 38-1931.

SUCH IS LIFE
By Charles Sughrue
SOUNDS PLAUSIBLE

Since the beginning of the 1931 building season, state and county highway systems of Illinois had been extended 852.29 miles when operations ended for the day on August 26.

The Illinois department of agriculture reports that peach canning and preserving is being carried on in a big scale in Illinois, particularly in cities of from 10,000 to 15,000 population. An unusually large quantity of the fruit was shipped into these communities early in the harvest, equal to the total shipments of normal years. Since then orders from these centers have been received for car-load lots.

Illinois leads all her sister states in the constructive character of work done in her charitable and penal institutions. The first step taken by the present administration to achieve this result was the extensive building program that has been completed, which relieves the crowded conditions of the state prisons, hospitals for the insane and colonies maintained for the feeble-minded. The Illinois Surgical Institute for Crippled Children is now open and performing its remarkable mission of making the lame walk. The care and treatment given has enabled many patients to return to their homes and thus lessen the population of such institutions. There is a possibility that the world may some day be rid of mental diseases and the hope is that Illinois state hospitals may make valuable contributions toward that end.

Gov. Louis L. Emmerson has appointed a commission composed of Director Ralph E. Bradford of the Illinois department of conservation; W. R. James and Otto H. Hassel, both of Chicago, to go to Washington to discuss with federal officials the possibility of changing the recent order that limits duck hunting here to the month of October only.

Bidders on the work to be done at the State Reformatory for Women at Dwight, Research and Educational hospital at Chicago, and the aviation hangars of the Thirty-third Division of the Illinois National Guard at Chicago have been announced by C. Herick Hammond, supervising architect. The bids are being analyzed and contracts will likely be awarded soon.

In a recent address Director Stuart E. Pierson of the state department of agriculture stated that cutting costs of operating governmental service is largely a matter of co-operation, and attributed the success of the branch of the state service he directs to the co-operation it receives from the public, which enables the department to render greater service for each dollar of public funds.

Hon. R. C. Soderstrom, president of the Illinois Federation of Labor, addressed the first meeting of the American Business club held since adjournment for the summer, and spoke of the accomplishments of the labor movement and pointed out that working hours have been limited and compensation legislation passed.

The newly completed Lincoln-Chandler bridge was recently dedicated by Gov. Louis L. Emmerson. This new span at Chandlerville replaces a bridge across the Sangamon which two years ago was destroyed by an ice flood.

At the annual Illinois Conference on Public Welfare to be held at Rockford, October 19 to 20, a vote will be taken upon a proposal to incorporate the conference and adopt a new set of by-laws. If this is carried the name may be changed to the Illinois Conference on Social Welfare. Its purpose will be to facilitate discussion of the problems and methods of human improvement, to interpret social welfare achievements; to stimulate more effective social welfare work; and to disseminate information.

In a speech before the American Legion convention held in Peoria Gov. Louis L. Emmerson reviewed the state's work in housing disabled veterans and outlined the program for future care, under the appropriations of the legislature.

At the American Legion meet, held recently in Peoria, first prizes among Illinois drum corps went to the Commonwealth Edison post of Chicago for its musicianship and to the Kankakee post for its marching ability. Other prizes were taken by bands from Galva, Park Ridge, Chicago, Monmouth, Kankakee, Evanston, Wilmette, Jacksonville, Logan, Lombard, Belvidere, Decatur and Aledo.

State Treasurer Edward J. Barrett left September 5 to attend a national gathering of auditors, treasurers and comptrollers in session at Biloxi, Miss.

Plans have been made for an inspection tour of the Illinois waterway to be held under the auspices of the waterway committee of the Peoria Association of Commerce. Visits will be made to the projects completed or now under construction at Starved Rock, Marseilles, Dresden Island and Brandon road.

Director Rodney H. Brandon of the department of welfare, who visited penal institutions in New York and Massachusetts, has obtained information on manufacture and disposal of prison products in the East and steps to draft a program under which the prison labor law can become operative will be taken soon. The temporary standardization board will submit its recommendations on goods to be manufactured at the Illinois prisons.

Representative William J. Lawler spoke at the Labor day celebration at Jacksonville praising the work of organized labor from its beginning, and urging it to continue its work for the benefit of the world's toilers.

At a recent meeting held in Peoria of more than three hundred sportsmen of Illinois, representing 336 boat and gun clubs, the Sportsmen's Conservation and Protective association was organized. The newly formed organization adopted a resolution asking the authorities at Washington to allow the conservation department of each state to select a period of thirty days between October 1 and December 15 as the open season on migratory birds.

In making a decision in regard to the difference of opinion existing between officials of Champaign and McLean counties as to the support of poor in the county farms, representatives of the attorney general's office state that under the new pauper relief law, the support of paupers in county poor farms is to be pro-rated among the various townships in each county according to the number of paupers each has in the county institutions.

At a meeting called by Hon. William G. Thon, chairman, the George Washington Bi-Centennial commission for the state of Illinois elected State Superintendent of Public Instruction Francis G. Blair as chairman of the state educational contest committee. The federal commission will hold a meeting at Washington about October 15, to which all state chairmen have been invited. After this meeting the state commission will start on an aggressive program, as directed by the Fifty-seventh general assembly, for the "comprehensive observance of this great historic event."

Within a short time the state highway department will let contracts on approximately \$11,000,000 of Illinois road work that has been pending for many weeks awaiting completion by the state wage appeal board of hearings and decisions on protested work originally set for letting in August. The first bids since this delay were received September 8.

All "Egyptians," regardless of where they live, are extended a general invitation to take part in the annual picnic of the Egyptians of Springfield at Washington park, Sunday, September 20. A number of men of prominence who claim southern Illinois as "home" are expected to attend. Gov. Louis L. Emmerson, United States Senator Otis F. Glenn, Francis G. Blair, superintendent of public instruction, are among those listed on the program. All attending are urged to bring the proverbial well-filled basket.

A clerk who fails to make returns on sale of hunting and fishing licenses is liable criminally for embezzlement, is the decision given by Attorney General Oscar E. Carlstrom to Director Ralph E. Bradford of the department of conservation. The clerk contended that sums could not be collected because suit was not brought at the end of thirty days when the law provides remittances but that this does not serve as a limitation on the right of action against the clerk.

According to an announcement from Washington D. C., the open season on wild ducks in Illinois, recently curtailed to the month of October, will be changed and the dates for the new period will be given in a short time.

Gov. Louis L. Emmerson recently speaking at the Chicago Daily News fresh air fund campaign at Soldier's field, lauded the willingness with which Chicagoans dig deeply into their pockets to aid the under-privileged and unfortunate and praised the efficiency of America's armed forces.

The opening of state highway No. 78 at Hoopole recently affords direct connection between East St. Louis and the Wisconsin line, a distance of 301.8 miles, costing about five million dollars.

The Illinois Library association will hold its thirty-fifth annual conference in Peoria, October 21 to 23. Meetings will be held for the individual sections, as trustees', children's, and the reference and advisory service. Pere Marquette hotel has been chosen as headquarters.

The Illinois Commerce commission has granted a certificate to the Illinois Power and Light corporation to construct and operate an electric transmission line to serve the territory of the village of DeWitt and nearby rural territory.

Lieut. Gov. Frederick E. Sterling has returned from Europe, where he has been studying prison conditions with members of the state legislature's prison commission, and predicts a new era of penal institution reform for his home state.

FAMOUS GLACIER IN REVERSE MOVE

Scientist Make Plans to Study Effects.

Muir glacier, the chief feeder of icebergs and ice fragments to landlocked Glacier bay, is the best known and one of the most interesting of American glaciers, says the National Geographic society. It is not a narrow river of ice of the ordinary type, but rather a broad lake of ice fed by tributary streams in many directions, and discharging through the comparatively narrow Muir inlet into Glacier bay.

Glacier bay itself is one of several fjords which gash the coast of Alaska's panhandle, not far from the point where the panhandle is joined to the main part of Alaska. It is perhaps best known to shipping men as the farthest north part of the long, island-sheltered "inland passage," up which boats can weave a way from Seattle and Vancouver.

But Glacier bay is not a through passage, and consequently its upper reaches, a solitude of ice and snow and new-born rocks, dim, dreary, mysterious, is seldom visited by cargo steamers.

From end to end Glacier bay stretches 50 miles, and is fed by half a dozen glaciers of enormous size. Muir glacier, named for its discoverer, John Muir, is the largest. Where it ends Muir glacier spreads across a front of three miles and is a thousand feet high, although some 700 feet are under water.

The bottom of this valley of discharge is below sea level, so that the ice-packed front is constantly washed by the water of the ocean. The part of the valley not occupied by the glacier itself is known as Muir inlet, a branch of Glacier bay.

Muir glacier gained most of its fame and scientific attention from the fact that it is one of the liveliest of North American glaciers. Various estimates of its speed have been given, some of them as high as 60 feet a day, although 7 to 10 feet a day is generally accepted

among scientists as nearer to its true rate.

Glacier movement can be estimated most easily by driving a number of stakes in the ice and a single stake along the land near the glacier. By watching the relative positions of the two kinds of stakes, and by measuring the number of ice stakes that pass the given land point within a certain time, the speed of the glacier can be determined.

Yet, while Muir glacier, moving seaward, constantly "calves" icebergs, large and small, and a daily crop of "growlers," as small ice fragments are known, its ice front has been "running in reverse" almost constantly since Glacier bay was explored by John Muir in 1879.

In 1792, when this part of the Alaskan coast was mapped by the English navigator, Vancouver, Muir inlet and Muir glacier could not be seen from the sea. Nearly the whole of Glacier bay was then filled with ice. Since the time of Vancouver the retreat of the ice in this part of Glacier bay has been more than 15 miles.

Between 1890 and 1892 there was a slight advance, but in 1899 an earthquake helped the sea recapture a great deal of territory and another major recession, which extended across the entire front of Muir glacier, began.

Previous to 1899 Muir glacier was a favorite stopping place of Alaskan tourist steamers. Passengers were landed a short distance from the front of the glacier and usually the glacier would oblige by launching a huge block of ice which broke through the floating pack ice in front with a resounding crash.

Since the earthquake of 1899 a solid ice pack 5 to 10 miles in width has made approach to the face of the glacier itself difficult, although the number of visitors is still considerable.

Back of the ice pack the glacier has diminished steadily, while, paradoxically, its general bulk has been moving seaward. It is this "backward movement" that a recently formed scientific expedition is to observe.

Sometimes modesty is flouted.

Mail Carrier Employs Mule as Motive Power

The carrying of the mails has progressed so rapidly in late years that the airplane now speeds across the country with mail in only a fraction of the time required by trains of a few years ago, yet in spite of all the progress there is one mail route which goes on unchanged in the 36 years of its operation. In Edwards, Colo., W. H. Wellington, a veteran of the mail service, has the contract for transporting the mail from the post office to the railroad station, and thrice daily for 36 years he has driven the mail back and forth in a

Mercolized Wax Keeps Skin Young

Get an ounce and use as directed. Fine particles of aged skin peel off until all defects such as pimples, liver spots, tan and freckles disappear. Skin is then soft and velvety. Your face looks years younger. Mercolized Wax brings out the hidden beauty of your skin. To remove wrinkles use one ounce Powdered Saville dissolved in one-half pint witch hazel. At drug stores.

Your Children!

GUARD their tender skins by using Cuticura Soap regularly from the day of birth. Assist with the Ointment, if required, to soothe and heal any irritations.

Substitution of Heart

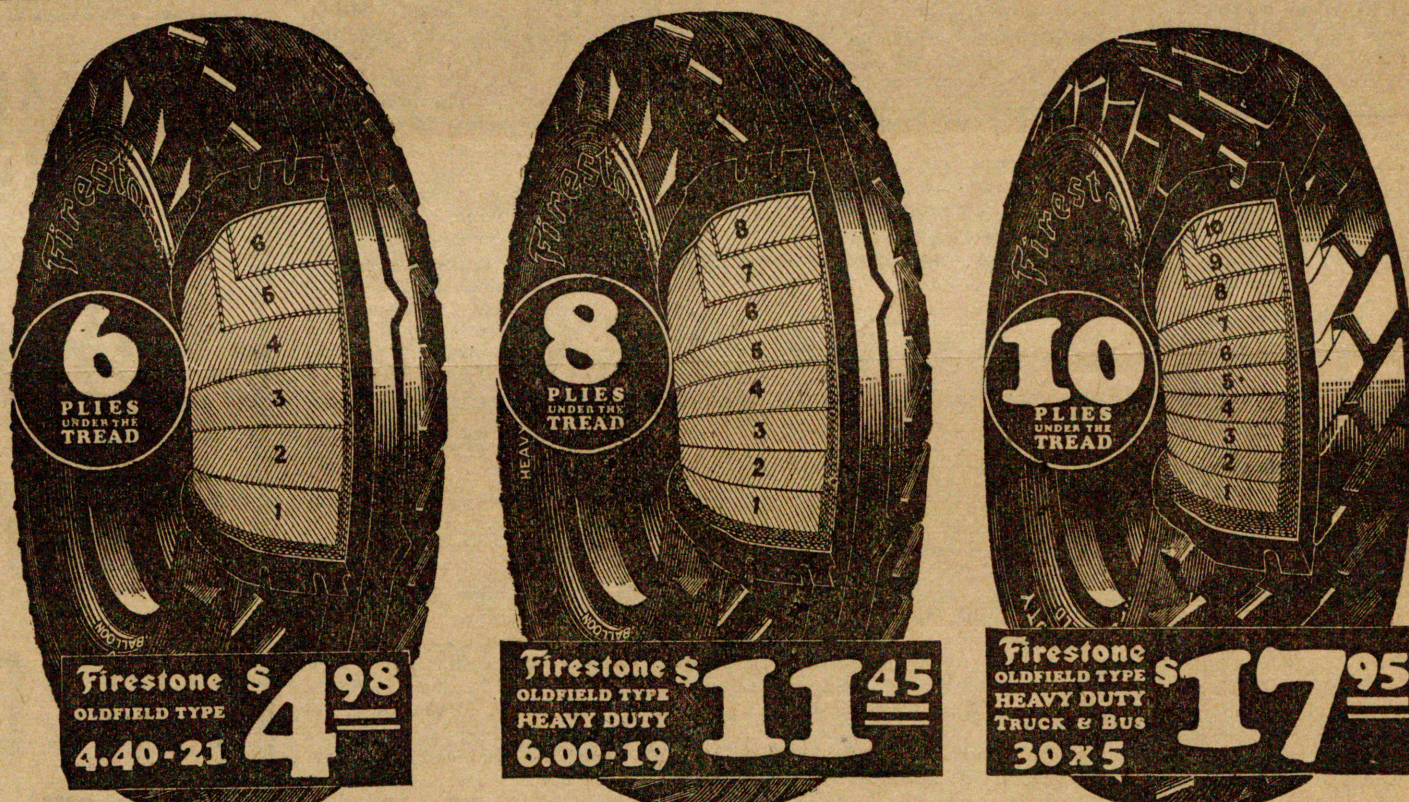

Worked Only for Time

It is not true that Dr. Wallace M. Yater, of Georgetown university, took the heart out of one animal and substituted it for the heart of another animal. What he did was to insert a heart into the circulatory system of another animal, leaving the animal's own heart intact. A transplanted heart stops beating during the transfer, but resumes its rhythm when properly connected with the veins and arteries. For a few days Doctor Yater's transplanted heart functioned as a sort of aux-

iliary "pump," but after a week it disintegrated and ceased to beat. It is said that an organ can be transplanted from one part of an animal to another part, as from the thorax to the neck, but no one has yet succeeded in keeping permanently alive vital organs that have been transplanted from one animal to another. There is something peculiarly personal about vital organs.

Who?

"You didn't know who I was this morning, did you?"
"No; who were you?"

★A "Special Brand" tire is made by a manufacturer for distributors such as mail order houses, oil companies and others, under a name that does not identify the tire manufacturer to the public, usually because he builds his "best quality" tires under his own name. Firestone puts his name on EVERY tire he makes.

Double Guarantee—Every tire manufactured by Firestone bears the name "FIRESTONE" and carries Firestone's unlimited guarantee and that of our 25,000 Service Dealers and Service Stores. You are doubly protected.

FIRESTONE exclusive features—Cord-Dipped Cords, two Extra Cord Plies under the tread, Scientifically Designed Non-Skid Tread—insure long, safe, trouble-free mileage. Only Firestone Tires give you these unequaled extra values.

Consider values only—not tricky sales talk or misleading claims. Compare sections of Firestone and Special Brand Mail Order Tires—check every statement—see Firestone extra values for yourself.

The Firestone Service Store or Service Dealer near you has these sections. See him today—he will save you money and serve you better.

MOKENA

Mrs. Rose Moriarty and Mrs. Selma Krapp attended the North Illinois Convention of the Ev. Women's Union in Chicago Wednesday and Thursday of this week.

Mrs. Adolph Steen is attending a convention in Boston, Mass.

Mrs. Anna Magrel has returned to her duties as manager of the local Royal Blue Store following a recent illness. Her friends are pleased to see her back.

Mr. and Mrs. Milton Krapp have been visiting in Valparaiso, Ind.

Miss Minnie Scheer who has been in ill health for several years was removed to Silver Cross hospital in Joliet this week.

Mr. and Mrs. Gilbert Homering moved this week into the cottage of Ed. McGovney.

Mr. and Mrs. Tom Homering, Jr. moved from the Krapp flat into the home of the former's father across the street.

The ladies of the Catholic church met at the church Thursday in a house cleaning session.

Mr. and Mrs. Don C. Hall and grandson Carlos, have returned to Mokena after an absence of two years.

They have been actively engaged in the show business during that time.

Will Hold Religious

Education Meet

The Annual Convention of the Will County Council of Religious Education will be held at Peotone on Saturday and Sunday, Oct. 3 and 4. The opening session will be held on Saturday afternoon at 2:30 p. m. A feature of this session will be an address by T. A. Tripp on "How Shall We Teach Religion?" The annual convention banquet will be held in the evening.

Sunday afternoon the convention will reconvene with three divisional conferences, children's division, leadership training and adult.

The convention speaker will be T. A. Tripp of Springfield.

Bids For Stone

Notice is hereby given that sealed bids will be received in the office the Town Clerk of Orland Township, Orland State Bank, Illinois, on October 3, 1931, until 1 o'clock p. m. for the purchase of approximately 500 cubic yards of crushed stone and 500 cubic yards of chips and of screenings to be delivered to the surface of 175th street between 94th avenue and 84th avenue and 151st between 96th avenue and 100th avenue as per specifications on file in the office of the Town Clerk.

Proposals must be on forms herein provided, without any addition or modification whatsoever. The Highway Commissioner reserves the right to reject any or all proposals, and to waive technicalities. A certified check of 5 percent of the amount bid must accompany each proposal.

Full information may be obtained by writing to the Town Clerk or Highway Commissioner of Orland Township, Orland Park, Illinois.

By order of Wm. T. BEAGLEY, Highway Commissioner
JOSEPH CREER, Clerk

ORLAND PARK

Judge Henry Waje is having a 5 acre slough converted into a private lake on his property. He plans to stock the lake with fish. There is an island in the center of the lake.

Orland Park played Congress Park Sunday and was defeated with a score of 13 to 6.

Mr. and Mrs. Carl Quigley visited with relatives in Windsor, Ill., Sunday.

Mr. and Mrs. George Abbe and Miss Pauline Rauch of Orland visited the fruit orchards in Michigan one day last week.

Mr. and Mrs. George Abbe and family visited at the William Rauch home Sunday afternoon.

FRUIT FOR OLD PEOPLE

The Orland Park M. E. church is collecting fruit for the Old People's home and there are about 18 empty jars to be filled. This is a real opportunity to help in a good cause. Those desiring jars please get in touch with Rev. Paul Sanders.

Mrs. H. P. Luther left the fore part of the week for San Francisco. Later she will go to Emigrant, Montana.

OBITUARY

Funeral services for Mr. H. P. Luther were held in the Orland Park M. E. church on Friday afternoon, Sept. 11. Internment was made in Brooks cemetery.

Mr. Luther was born near Lemont, Illinois on December 21, 1861 and died at Orland Park on Sept. 9. He was especially active in religious work from boyhood until the time of his recent illness and his passing is mourned by a large group of associates in his local church and by neighbors here.

He is survived by his widow and one son Lawrence A. Luther of San Francisco and by two brothers, Frank A. Luther of Chicago and Henry Luther of White Cloud, Michigan.

FRANKFORT

Deputy Wm. Knippel has been busy serving grand jury summonses in this section the past week.

Work is well underway on the foundations for the new house and milk garage which Wm. Knippel is having built on route 51 north of the Lincoln Highway.

Dr. and Mrs. Floyd Clark and son Jack of Oak Park, Mr. and Mrs. Ted Clark of Chicago, Dr. and Mrs. Paul Clark and children of Marseilles, Ill. spent Sunday here with their parents, Mr. and Mrs. John M. Clark.

Mr. and Mrs. John M. Clark attended the funeral of John Clare held in Joliet Wednesday morning.

Mr. Clare was the father of Mrs. Ted Clark, daughter in law of Mr. and Mrs. John Clark.

The Ladies Aid Society of St. Peter's Evangelical church held their monthly birthday "coffee" Thursday afternoon and evening in the church basement. The following ladies served this month: Mrs. Albert Jarchow, Mrs. George Bettenhausen, Mrs. Ernest Gerke, Mrs. Barney Zechlin, Mrs. Edward Runge, Mrs. Gilbert

Schmuhl, Mrs. Fred Klepper, Mrs. Henry Bruggeman, Mrs. Adam Heusner, Mrs. John Harnack, Mrs. George Heisner.

Don't forget the 4th annual hop of the Frankfort school Alumni at the Frankfort Grove this Saturday evening. All invited.

The Frankfort and New Lenox 4H Calf Club meet Tuesday evening in the home of Fred C. Francis New Lenox.

Harvest festival and rally day services will be held in the St. Peter Evangelical church Sunday, Sept. 27 in the evening there will be out of town speakers.

Miss Emma Nauman of Elkhart, Indiana returned to her home Saturday after spending several weeks visiting relatives and friends here. She was accompanied home by her cousin in Mr. and Mrs. Ferdinand Scheer of Green Garden who spent the week end with her.

A large number of Frankfort folks attended the chicken supper given by the ladies of the M. E. church in Green Garden.

Prizes Offered In Hidden Quart Contest

In last week's issue of this paper appeared an offer of \$10,000 in cash prizes for the best answers explaining "The Mystery of the Hidden Quart," and launching the largest advertising campaign ever sponsored by Continental Oil Company in the interest of Conoco Germ Processed Motor Oil.

"Teaser" announcements of this campaign have appeared during the past few days throughout the country, and last week's advertisement announcing the cash prize contest appeared in 1,569 newspapers, with a combined circulation of more than 9,000,000. The advertising in connection with this prize contest will constitute one of the largest campaigns ever conducted by an oil company during a similar period of time, according to Wesley I. Nunn, advertising manager of Continental Oil Company.

The contest announced last week is one in which motorists are invited to compete for \$10,000 in cash prizes, in telling how the "hidden quart" of Conoco Germ Processed Motor Oil benefits motorists. The question is "What becomes of the 'hidden quart' and how does this quart benefit the motorist?" There are 29 prizes, first prize being \$5,000.

The contest closes at midnight of September 28, 1931 with all communications being sent to Continental Oil Company, Ponca City, Okla. Judges of the contest are: Dr. W. B. Bizzell, president of the University of Oklahoma; John A. Hunter, professor of mechanical engineering University of Colorado, and Frank L. Mattin, associate dean, School of Journalism, University of Mo.

PALOS PARK

Last Sunday evening at 8 p. m., the new addition to the Palos Park Community church was officially opened by a Communion Consecratory service held in the new dining room.

It was a most unique and inspiring service arranged by Rev. Thomas of the Palos church. There was a brief address by Rev. Sanders which lead into the communion service conducted by him and assisted by Rev. Coats of Lemont and Rev. Jones of Worth.

The congregation were seated around a large table from which the elements were served similar to the first or last supper Christ held with his disciples.

It was a very impressive and inspirational service.

On Tuesday evening the Inter-Community reception and open house was held and on Thursday evening the dedication banquet for the benefit of the building fund.

Argument Ends Game With Manhattan

Sunday Sept. 20 the Mokena baseball club played Manhattan, the game lasted six and two thirds innings due to an argument in the seventh inning the score for the six and two thirds innings appears below—

Mokena-	0	0	0	0	3	0	RHE
Manhattan-	0	0	0	1	0	1	RHE

Mokena	AB	R	H	E
Smith, ss	4	0	1	0
Kohl, cf	3	0	0	0
Sorenson, 2b	4	0	2	1
R. Martin, 3b	3	0	0	0
James Marti, rf	1	0	0	0
W. Marti, lb	2	0	1	0
P. Hacker, lf	3	1	1	0
R. Hohenstein, c	3	1	1	0
Schuldt, p	2	1	1	1
*John Marti,	2	0	0	0
Total	27	3	7	2

Manhattan	AB	R	H	E
Delaney,	4	0	0	0
Kohl, cf	4	0	0	0
Fitzgerald,	3	1	0	0
Palmer,	4	1	1	1
McHueh,	4	1	1	0
Even,	4	0	2	0
Goodwin,	3	0	0	0
Gerdas,	3	0	0	0
McGuire,	3	1	3	0
Total	34	4	7	1

*Replaced James Marti in first of fourth inning.

Home run, Schuldt. Stolen bases, Kohl, Marti (2), Hacker, W. Marti, Fitzgerald, Henry. Struck out—by Schuldt, 8; by McGuire, 4. Bases on balls—off Schuldt 1; off McGuire 4.

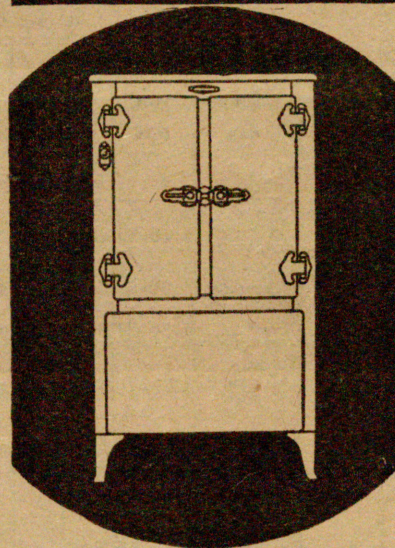

Manhattan made one run in fourth inning, one in the sixth, and one in the seventh inning.

Mokena made three runs in the sixth inning when Schuldt hit a home run with two men on bases. The game ended in the seventh inning when the Manhattan players walked off the field because of an argument Sunday Sept. 27th Mokena will play Orland at Mokena.

TINLEY PARK

Frank Schoenheider of Orange, Calif., has returned following a visit at the H. F. Bruggemann home. My Schoenheider is connected with the first national bank of Los Angeles.

The Tinley team played a Chicago team Sunday and were defeated.

The Rock Island flag shanty which has been abandoned since the electric crossing flashers have been installed, has been removed.

Edna Neimann broke her arm when she fell from the porch at the John Funk home.

Special Entertainment To Feature St. John Mokena

Brotherhood Meeting

The Brotherhood of the St. John Evangelical church of Mokena will hold their regular meeting October first. An extraordinary entertainment is planned. A film will be shown entitled "The Romance of Rubber". There will be instrumental and vocal selections. Mr. Antonio L. Chavez, operatic baritone will be heard, also Mr. Alexander Dobrohot-off, soloist, Russian Imperial Orchestra and Mrs. Ethel Bibicoff, lyric soprano.

MRS. MAYER DIES IN CHICAGO THURSDAY

Mrs. Mayer, well known to many of the residents of Mokena and Tinley Park and surrounding territory, died in her home in Chicago Thursday noon following a paralytic stroke. She is survived by her husband. Funeral services will be held Saturday morning from St. David's church, Chicago with burial in St. Mary's cemetery.

DANCING SEASON CLOSSES

The dancing season of the Mokena Men's club came to a close Saturday night when they held their last dance of the season at their pavilion in the Cappel Grove. The club has had a very successful season.

Public Service Plans

Lower Gas Rates Soon

A new schedule of reduced rates for gas service made possible by the bringing of natural gas into the Chicago Metropolitan area, has been filed with the Illinois Commerce Commission by the Public Service Company of Northern Illinois. According to an announcement from the Company's general offices in Chicago, the new rates, if approved by the Commission, will bring a reduction in the cost of gas for residential heating and commercial space heating of approximately 20 per cent. Gas for cooking and other domestic purposes will be reduced a approximately two percent. The total saving to gas users supplied by the Public Service Company will amount to more than \$300,000 over a period of 12 months.

The Company states that it is prepared to put the new rates into effect immediately upon the approval of the Commission and to begin the distribution of the "new gas" which will, in the greater part of the territory served by the Company, be a mixture of the natural gas and that manufactured locally, and will have a heating value of approximately 800 B. T. U.
